[News](#)

T470 Heavy Duty Handle is perfect for **intensive soldering jobs requiring continued high thermal power such as large ground planes, production of solar panels, armor and other applications.**

It features a grip of larger width and a screw which fixes the cartridge to prevent its rotation.

It can provide up to 250W when used with a HDE Heavy Duty Station and C470 Cartridge Range.

It can also work with Modular Control Units and CDS / CDB Stations using C245 Cartridge Range.
